“Data Analytics Using Machine Learning & Artificial Intelligence”

REPORT

We have conducted webinar on “Data Analytics Using Machine Learning & Artificial Intelligence” for 6th and 8th semester students of Computer Science & Engineering Department. The program has been scheduled on 26th May 2022 (from 11:00 AM to 1:00 PM).

The organizing committee consisted of following members

- 1) Dr.Bharath P B, Principal, SJMIT, Chitradurga.
- 2) Prof. Poral Nagaraja, HOD, CSE Dept.,SJMIT, Chitradurga.
- 3) Prof. Basantha Kumari, Asso.Prof., CSE Dept.,SJMIT, Chitradurga.
- 4) Prof. Shruthi.M.K, , Asso.Prof., CSE Dept.,SJMIT, Chitradurga.

The Chief guests of the Python Programming event are as follows :

- 1) Mr.Sudhakaran Suruliraj, Chief Technology Officer, Xecutesmart Technologies, Chennai.

In today’s competitive world , “Data Analytics Using Machine Learning & Artificial Intelligence” plays major role in getting jobs for IT Industries. With reference to this Computer Science & Engineering Department conducted a webinar for 6th and 8th semester students on 26th May 2022.

The webinar was very informative & fruitful where he began the session right from fundamentals and took up to the level of designing and developing projects that would help the students to get a clear idea of how to learn and practice to cater the requirements of the industry. The students could realize that Artificial Intelligence & Machine Learning is going to be an advanced technology to revolutionize the current world.

The webinar has been conducted successfully and the students got more knowledge on Artificial Intelligence & Machine Learning.

The HOD of Computer Science & Engineering department Prof. Poral Nagaraja addressed the students about how to use Data Analytics Using Machine Learning & Artificial Intelligence in cracking the interviews to get placed in several industries.

The Principal Dr. Bharath P B took this opportunity to whole heartedly express his gratitude to Mr.Sudhkaran Suruliraj ,who spent his valuable time for teaching AI & ML for our students.

WORKSHOP ON “MOBILE APPLICATION DEVELOPMENT”

MOBILE APPLICATION DEVELOPMENT: Mobile app development is the act or process by which a mobile app is developed for mobile devices, such as personal digital assistants, enterprise digital assistants or mobile phones. These software applications are designed to run on mobile devices, such as a smartphone or tablet computer. These applications can be pre-installed on phones during manufacturing platforms, or delivered as web applications using server-side or client-side processing (e.g., JavaScript) to provide an "application-like" experience within a web browser. Application software developers also must consider a long array of screen sizes, hardware specifications, and configurations because of intense competition in mobile software and changes within each of the platforms. Mobile app development has been steadily growing, in revenues and jobs created. A 2013 analyst report estimates there are 529,000 direct app economy jobs within the EU than 28 members (including the UK), 60 percent of which are mobile app developers.

As part of the development process, mobile user interface (UI) design is also essential in the creation of mobile apps. Mobile UI considers constraints, contexts, screen, input, and mobility as outlines for design. The user is often the focus of interaction with their device, and the interface entails components of both hardware and software. User input allows for the users to manipulate a system, and device's output allows the system to indicate the effects of the users' manipulation. Mobile UI design constraints include limited attention and form factors, such as a mobile device's screen size for a user's hand(s). Mobile UI contexts signal cues from user activity, such as location and scheduling that can be shown from user interactions within a mobile app. Overall, mobile UI design's goal is mainly for an understandable, user-friendly interface. Functionality is supported by mobile enterprise application platforms or integrated development environments (IDEs).

Resource Person

Dr. Harish Kumar B T Assistant Professor at Bangalore Institute of Technology.

Introduction Dr. Harish Kumar B T is working as Assistant Professor at Bangalore Institute of Technology, corporate trainer for work integrated learning programs at Wipro and CISCO and also counselor for Indira Gandhi National Open University (IGNOU). Recently he is also nominated as the IT Cell coordinator of Bangalore Institute of Technology and has developed a web based Data Portal for BIT. Data Portal is currently is currently handling nearly 5,500 student registrations, nearly 300 faculty registrations and witnessing an average of 350 logins every day. He is also running a small business under the name “Smart Engineering” in association with his brother. Smart Engineering

manufactures Garments Finishing Equipment's, Spray Booths, Scrapping Tunnels, Fusing Machines, 3D Machines and Industrial Automation. For Smart Engineering Dr. Harish Kumar B T mainly writes programs for Human Machine Interface (HMI) and Arduino.

He obtained his B.E degree in Computer Science & Engineering from Adichunchanagiri Institute of Technology, Chikmagalur in 2004 and M.Tech degree in Computer Science & Engineering from Dr. Ambedkar Institute of Technology, Bangalore in 2007. He has obtained his Ph.D. degree on the thesis entitled "Quality Improvement in Web Page Personalization and Page Ranking Using Web Mining Techniques" from BNIMT Research Center, VTU in 2019.

He has published various papers at the National/International level in conferences/ journals of repute out of which, for some papers he has received best paper award. He is a reviewer for the International Conference on Information Processing organized by UVCE, Bangalore every year. He has also chaired the session on data science track in the International Conference on Information Processing-2019.

He has also delivered 3 webinar sessions as resource person on "Building Dynamic Web Applications" at our own college Bangalore Institute of Technology, at Brindavan College of Engineering and at East West College of Engineering. He was the chief coordinator for the "Technology for Health" International Conference which was organized in 2019 and 2021. He has guided more than 50 UG students and 16 PG students for completing their thesis. His research area includes Data Mining, Parallel Computing, Artificial Intelligence, and Web Mining.

APPRECIATION LETTER

Date: 05 JUL 2022

It is indeed our pleasure to have **Dr. Harish Kumar B T**, Assistant Professor, CS & E Department, Bangalore Institute of Technology, Bengaluru for being the resource person for two days Hands on workshop on "**Mobile Application Development**" conducted from **04-07-2022 to 05-07-2022** for the Computer Science & Engineering students of our institution.

The students through the session could get hands on experience regarding the coding of mobile app developments for mobile phones.

So, we take this opportunity to whole heartedly express our gratitude to **Dr. Harish Kumar B T**, who spared two days of his valuable time for our students and enriched their skills.

However, we seek his association in future also to share his experience for our students.

With the divine blessings of His Holiness, Dr. Shivamurthy Murugha Sharanaru, the present Pontiff and President of SJM Vidhayapeeta, Chitradurga, Department of Computer Science & Engineering successfully conducted a State Level Workshop titled “Microcontroller and Embedded Systems” for 4th Semester CSE / ISE Students and Faculties of VTU affiliated Engineering colleges, on 19.08.2022. The resource persons of the programme were Dr. Sanjeev Kunte, Professor & Head, Department of ISE, JNNCE, Shivamogga and Mr. Chidambar S Kulkarni, Zonal Manager, TMI Systems, Bangalore. They elaborated the Embedded System Design with Microcontrollers and also they provided a hands-on session on ARM7 LPC2148. The participants actively attended the sessions and expressed that the workshop was very interesting and informative. Total 112 participants participated and benefited. We have received a best wishes message from Sri Basavaraj Bommai, Honorable Chief Minister, Government of Karnataka and Dr. Karisiddappa, Honorable Vice chancellor, Visvesvaraya Technological University, Balagavi.

The Workshop was coordinated by Prof. Ramesh B.E., Dr. Krishnareddy K.R, Dr. Aravinda T.V. and Prof. Kumaraswamy H. The Resource persons and Principal distributed the certificates to all the participants at the end of the workshop. The workshop was presided by the Principal, HOD and staff members.

Overview

S.J.M Institute of Technology (SJMIT) was established in the academic year 1980-81 with the blessings Sri Sri Sri Mallikarjuna Murugharajendra Mahaswamiji, with an intention to take higher education to the threshold of aspirants. Dr. Shivamurthy Murugha Sharanaru is the present Pontiff of Sri Murugha Math and the President of SJM Vidyapeetha. SJMIT is located just adjacent to the Pune-Bangalore National Highway-4, the institute is well connected with road and railway network and just 200 kms drive from Bangalore. The eco-friendly campus filled with flora-n-fauna sprawled with lush green garden spread over vast 22 acres of land makes an ideal platform for higher education center with homely atmosphere.

The Computer Science and Engineering Department established in the year 1983 is one of the largest premier departments having state-of-the-art infrastructure facility. It imparts an outstanding educational opportunity for those planning to pursue a career or to gain in-depth knowledge in computing technology.

M.Tech in Computer Science and Engineering course was added to department in the academic year 2011-12 with an intake of 18 students with a view to build a vibrant learning environment through value based academic principles where in all involved shall contribute effectively and efficiently with all responsibility to prepare students to meet the global challenges related to IT world.

Programme Schedule : Date: 19th August 2022

Timing	Event	Venue
9 AM to 9.30 AM	Registration	SIR M V Hall
9.30 AM to 10 AM	Inauguration	SIR M V Hall
10 AM to 1 PM	Demonstration	SIR M V Hall
1 PM to 2 PM	Lunch	SIR M V Hall
2 PM to 5 PM	Hands on Session	CSE Lab
5 PM to 5:30 PM	Certificate Distribution	SIR M V Hall
5:30 PM onwards	Cultural Programme	

About the Program

The aim of the workshop is to provide a platform for enhancing knowledge about the embedded system design with microcontrollers. The topics for the workshop include practical aspects of programming and debugging a microcontroller in real-time environment. The platforms to be used in the workshop are 8051 based microcontrollers and Arduino. It also includes basics of FPGA based designing for applications.

ARM Processor

ARM processor features include:

- Load/store architecture.
- An orthogonal instruction set.
- Mostly single-cycle execution.
- Enhanced power-saving design.
- 64 and 32-bit execution states for scalable high performance.
- Hardware virtualization support.

Objectives

- To provide basics of embedded system
- To provide idea of FPGA based implementation

Workshop Content

- ✓ Introduction to Embedded Systems
- ✓ Basics of Microcontrollers
- ✓ Embedded System development boards
- ✓ Interfacing with different sensors,
- ✓ Interfacing with DC & Servo motor
- ✓ Chip Scope Analyzer

MESSAGE

I am delighted to know that with the divine blessings of His Holiness, Dr. Shivamurthy Murugha Sharanaru, the SJM Institute of Technology, Chitradurga, is organizing one day State Level Workshop on Microcontroller & Embedded System for 4th semester Undergraduate students of CSE/ISE and faculties of VTU affiliated engineering Colleges, on 19-08-2022.

I am sure organization of such workshop at State Level will definitely fulfill the objective of the Institute to take higher education to the threshold of aspirants and help the students to gain in-depth knowledge in computing technology and prepare them to meet the global challenges related to IT World.

I wish the participating faculties and students of this State Level Workshop on Microcontroller & Embedded System, to come out with innovative ideas and solutions for the societal needs in this field.

My best wishes to the College and the organizers of this mega event.

TECHNICAL SEMINAR ON “DEVOPS IN SOFTWARE DEVELOPMENT”

DEVOPS IN SOFTWARE DEVELOPMENT: DevOps is a set of practices that combines software development (Dev) and IT operations (Ops). It aims to shorten the systems development life cycle and provide continuous delivery with high software quality. DevOps is complementary with agile software development. DEVOPS is a new culture evolved in IT sector. Its benefits students in their IT carrier and helps to understand the working culture of it. DevOps stage the development of software takes place constantly. In this phase, the entire development process is separated into small development cycles. This benefits DevOps team to speed up software development and delivery process.
